Dr. Jagadish Gogate Joins Symbiance as Director of Biostatistics Division

Princeton Junction, NJ — Symbiance, Inc., a niche-CRO providing clinical data management, biostatistics and medical writing, announced today that Jagadish Gogate, Ph.D., has joined the company as the new Director of the Biostatistics Division.

With clinical experience in critical care, anti-infectives/anti-fungals, gastro-intestinal diseases and allergy/immunology, Dr. Gogate will serve as the core project team member coordinating and managing all statistical project activities.

Prior to Symbiance, he was a Director at Eisai, Inc., where he served as the statistical lead on project teams charged with strategic drug development, and led several New Drug Application and Health Registration Dossier submissions. Dr. Gogate also represented the company in addressing statistical issues with the U.S. Food and Drug Administration and other regulatory agencies. Prior to Eisai, he worked at Schering-Plough Research Institute for 16 years. As an active member of the ASA, he has published a number of papers in various industry journals and makes presentations regularly at professional meetings.

Dr. Gogate received his Ph.D. in Statistics from Michigan State University in East Lansing, Michigan.

About Symbiance, Inc.
